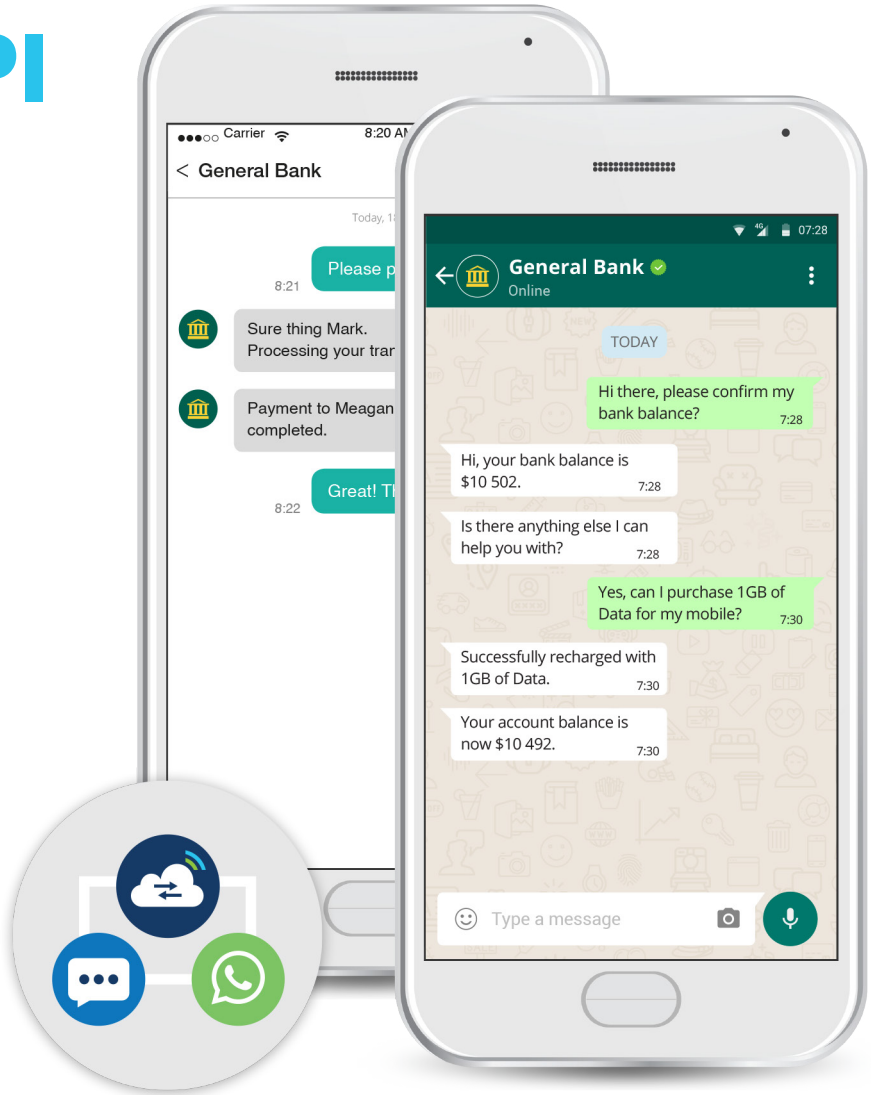
Clickatell Connect - One API

Clickatell Connect REST based One API enables messaging on multiple mobile channels with a single integration.



Benefits

- Enable multiple messaging channels
- Reduce cost of development
- Easily switch channels based on API configuration
- Ensure message delivery using channels fail over rules
- Options to encrypt messaging content

Channels supported on One API

- WhatsApp
- SMS

How to get started

Get started by creating a free Clickatell account and configuring your One API integration from the dashboard. If you need any help, have a look at our One API online documentation, FAQs or contact our support team on our website if you have any specific questions.
